

The Thief

Concept: Music Band Website.

Keeping fans up to date with current events, news, merchandise, tour dates.

My hope with this website is to create a clean website that is first and foremost functional before adding additional decorative elements.

Websites used for inspiration:

<https://www.linkinpark.com/>

<https://commonkings.com/>

Specific pages of websites that I'd like to create:

<https://commonkings.com/home> - being able to scroll down and incorporate all the pages on the website while also allowing for those pages to be clicked on and separate itself from the long scrolling of information

<http://chester.linkinpark.com/> - having a live feed from twitter or other social media and have them posted in squares/rectangles that fit the post.
